

1. Is there a specific Excel tab name requirement?
  - a. No, the sheet name does not have to follow any naming convention. However, only first sheet will be read in and any additional sheets will be disregarded.
2. Is there an opportunity to include the UCC submission deadline dates to the "production schedule" that's used for the Case Mix and reconciliation submissions?
  - a. Yes, hMetrix will work with HSCRC to post an updated production schedule with UCC due dates
3. Can you please confirm whether the UCC and denial data should be run for the quarters based off of discharge date or post date?
  - a. UCC data should be run based on discharge date/service date.
4. Will you be emailing the slides to us?
  - a. Yes
5. Is there a test environment for UCC, similar to Case Mix?
  - a. Yes, the test site will be available in January 2023.
6. McNew: How specialty hospitals will be handled?
  - a. Specialty hospitals will follow the same process for submitting the UCC files. However, when their file will be reconciled against the Case Mix file, the variation will be flagged as a warning and not error.
